education

Rochester Institute of Technology - Rochester, NY
Bachelor of Science in Information Technology and
Game Design & Development
GPA: 3.58

honors

Member of the RIT Honors program.

skills

Languages and Platforms

Fluent in HTML and CSS, knowledge of JavaScript and PHP.
Solid working administrative knowledge of Salesforce.
Extensive experience with WordPress, especially with the Divi
framework. Have used both Windows and Mac OSX.

Software

Microsoft Visual Studio 2010, Microsoft Office suite, Adobe
suite, Balsamiq and various other UX suites

Creative

Skilled in both web and print design. Hobbyist illustrator,
graphic designer, and video editor.

experience

CGI Digital, Rochester NY

Web Designer, November 2021-present

Met with clients to discuss their website needs, then created
sites to their specifications using WordPress and the Divi build-
er. Additionally provided other members of the web team with
feedback and contributed several bits of reusable code to the
team's base of code snippets.

Benefit Resource, LLC, Rochester NY

Internet Marketing Coordinator, February 2017-May 2021

Managed various design work and created multiple templates
for web, email, print, and various other marketing materials.
Helped drive the creation of a completely new branding for the
company's website and materials moving forward. In a crisis,
was able to hop into the Salesforce team with very little training
and perform dual work as both a marketing coordinator and a
junior Salesforce admin.

Priority Thinking LLC, Pittsford, NY

Web and Graphic Design, April 2015-January 2017

Updated and improved existing websites while creating new
websites for both internal and client use. Handled all graphic
design needs for both internal and client use (logos, iconogra-
phy, book covers, interactive diagrams, et cetera). Designer of
all company marketing materials.
